In view of applicants' response filed 11/13/03 only the following applies.

Claims 1,2,4 and 5 remain rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. While applicants have for the most part adopted the examiner's suggestion in the previous action, the optional substitution permitted for choice (iv), the indole ring system, is new matter. As stated in the previous action, the substituents listed on p.5 of the specification are limited to aryl groups. There is no such list seen for heteroaryls and otherwise no examples describing such a scope.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1,2, 4 and 5 remain rejected under 35 U.S.C. 103(a) as being unpatentable over Shiota (WO'329) for reasons given previously. Compounds # 1, 8 and 9 remain obvious variants of that claimed herein. Applicants do not urge patentable distinctness for closest instant compounds but rather urge the reference has been antedated. While a complete, certified English translation of

applicants' priority papers has been provided and does provide descriptive support, the claims cannot be accorded benefit of earlier 119 date in view of the new matter rejection still present in the instant case which lacks descriptive support in the instant specification for substitution at indole ring. Overcoming the new matter rejection would entitle applicants to benefit under 35 USC 119.

Claims 3 and 19-21 remain allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
